S. Houghton, M. D., Philadelphia, ANGHORNE & ARMISTEAD'S SUPE-

This is a truly wonderful remedy for Indigestion, Dyspepsis, Jaundice, Liver Complaint, Consumption and Debility, curing after Nature's own method, by Nature's own Agent, LARIOR CHEWING TOUACCO.-As principal agents for the sale of the above justly celebrated Tobacco in Nashthe Gastrie Juice. Half a tea-spoonful of Pepsin, infused in water, will digest or dissolve five pounds of roast beef in about two hours, out

It is extracted from the digestive stomach of the Ox, thus forming an artificial digestive fluid precisely like the natural Gastric Juice in its chemical powers, and furnishing a com-OTTON YARNES-20,000 dozen assorted sizes just plete and perfect substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspersia are removed just as they would be by a healthy stomach. It is TRESH ARRIVALS .- 200 bbls superior new wheat

doing wonders for dyspeptics, during cases of Debility, Emaciation, Nervous Decline and Dyspeptic Cousumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based is in the highest degree curious Scientific Evidence.-Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be prepared from the mucous membrane of the stormach of the Ox, in which various articles of food, as meat and eggs, will be softened,

changed and digested, just in the same manner as they would

be in the human stomach.

Dr. Preira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 25, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Priera. Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastrie Juice is a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of methcine in London, who was severely afflicted with this complaint, finding every thing else to fail, hio sus course to the Gastric Juice, obtained from the stoma-at pu living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in Physiology, that the stonnehs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of ef-

feeting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lee & Bhanchard, Philadelphia, 1846, pp. 321-2,) says: "The discovery of Pepsin forms a new era in the chemical history of digestion. From recent experiments we know that food is ssolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."
Professor Dunglison, of the Jefferson College, Philadelphia in his great work on Human Physiology, devotes more than PETH, Nall, Hat, Hair, Broom, Scrub, Tanner's Blacking and Scouring, Paint, Varnish, Marking, Art-ists, Shaving, Clothes, Steucil, Camels and Badger Hair, fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice obtained from the living human stomach, and from animals, are well known. "In all cases," he says, "digestion occurred as per-

Sweeping, White Wash, Popes Eye, (for cleaning windows) and Graning and Blending BRUSHES, on hand and for feetly in the artificial as in the natural digestion." Dr. John W. Draper, Professor of Chemistry in the College of the University of New York, in his "Text Book of North side of the Public Square, 3 doors West of the Nash-Chemistry," page 386, says: "It has been a question whether artificial digestion could be performed-but it is now universally admitted that it may be, Dr. Carpenter's standard work on Physiology, which is in

The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia-so naturally does such a use suggest itself to the

BLACKWOOD'S EDINBURG MAGAZINE (Tory.) Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. Blackwood, still under the fatherly care of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxions" and "My New Novel," (both by Bulwer,) "The Green Hand," "Katie Stewart," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Black-wood, after it has been issued by Messrs. MEDICAL.

AFFLICTED READ! DHILADELPHIA MEDICAL HOUSE .- Established 15 years ago by DR. KINKELIN. The oldest, surest and best hand to cure all forms of secret diseases of the skin, and solitary habits of youth, is DR. KINKELIN, N. W. cor-

ner of Third and Union streets, between Spruce and Pine, one and a half squares from the Exchange, Philadelphia. Take Particular Notice. There is a habit which boys teach each other at the academy or college - a habit indulged in when by themselves, in solitade, growing up with the boy to manhood, and which, if not alandoused in due time, not only begels serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and devastating affections. Few of these who include in this pernicaus practice are aware of the consequences, until they find the nervous system is, shattered, feel strange and unaccountable feelings, vague fears in the mind. The individual becomes feeble, he is unable to labor with accustomed vigor, or to apply his mind to study; his sep is tardy and weak, he is dull and irresolute, the countenance is downcast, the eyes without natural bastre, shamefacedness is apparent. These are symptoms which should undere the attention of those similarly affected.

If the victim be conscious of the cause of his decay, and having relinquished the odious practice, he suffers under those terrible nocturnal emissions, which weaken and shame him, producing mental and physical prostration. If he enuncipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his senses tell him that this is caused by his carly follies. Too many think they will bug the secret to their own bearts, and cure themselves. 'Alas' how often is this a fatal

delusion, and how many a promising couth, who might have been an ornament to society, has faded from the earth! Young Men!-Let no false modesty deter you from making your case known to one who, from education and respectibility, can alone befriend you. He who places himself under DR. KINKELIN'S treatment, may religiously coulde his honor as a gentleman, and in whose bosom will be orever locked the secret of the patient.

Do. Hogeland's Celebrated Greeks Betters, for the cure of Liver Complaint, Januadice, Dyspepsia, Chronic or Nervens Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent time of liver complaint from the use of this remody. We are convinced that, in the ceived an effectual and permanent care of fiver complaint from the use of this remedy. More Evidence. - The Hon. C. D. Hineline, Mayor of the city of Camden, N. J., says: "Houstan's Genaan Birrans.—We have seen many flat-tering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits. From inquiry we were persunded to use it, and unst say that we found it specific in its action upon diseases of the liver and digestive organs, and the influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, making sleep refreshing.

fied there would be less sickness, as from this stormeb, liver and nervous system the great amjerity of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally. This extraordinary medicine we would asly so our friends who are at all indisposed, to give a trial it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of metil.

Evidence upon evidence has been received (like the fore going,) from all sections of the Evidon, the last three years, and the stongest testimony in its favor, is, that there is more of it used in the practice of the regular physicians of Phila delphia, than all other postrums combined—a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presedent sin, no one can doubt after using it as directed. It acts spe-

cifically upon the stemach and liver; it is preferable to calomel in all bilions diseases; the effect is immediate. They can e administered to female or infant with safety and reliable benefit at any time.

DR. ARNOLD'S UNION PILLS. GREEN HILL, Tenn., January 19, 1852.

DR. ARNOLD-DRAG Sig-I consider it but an act of justice to yourself and the community, to state to you the very great benefit I have received from the use of your Union Pills. Having been for quita a number of years, greatly troubled with dispepsia, and constipation of the bowels; at times alarming me greatly. I used every other remedy, al-most that I ever read or head of for the disease, all without thest that I ever read or head of for the disease, all without the least beneficial effect. I had almost come to the beilef, that it was useless to try any more; as I labored under great debility, and my stomach was greatly injured by taking the different Pills, medicine, &c.; but on hearing my neighbors speak so frequently of the beneficial effects of your Union Pills, I concluded to give them a trial, and bought a lifty cents vial, and commenced their use. From the first dose of one Pill I was satisfied it was the medicine for me. I have not yet used quite one vial, and can now say to you with the utmost pleasure, that I have not for the last sum for the good these Pills have done me, and almost every branch of my family have used them with the same happy effect. At times some of the negroes have had symptoms of fever-at the first complaint I have given them one or two Pills, and never had to repeat the dose but once, which effected a cure. Your other medicines used by my family, have had the most happy effect. I shall always keep a supale of your Pills on hand, and I think that no one, as I have under great debility and dyspepsia, with all thei evil consequences, but what would, after a use of your medidines, join me in saying the same of them.
